Rainbow Light!

The Sun, as we know, gives us the highest Healing powers of light...it shines on every-one and every-thing evenly..... not leaving anyone out.

As it radiates to Earth & all upon her, it sends prisms of magnificent colour.

Colour healing is most profound. Particular colours work for specific areas & for specific ailments.

Our energy vortexes {charkas} symbolize this. They hold different vibrations and memories within them. We have 7 primary charkas, like a rainbow and by keeping them clear & bright, we become balanced & unified, holding our own light... Becoming a pillar of light! White Light!

This Rainbow Light water is designed for enhancing your own chakra system, and charging them with radiant energy!

You can dab the water on each chakra for full activation or just dab on one chakra that feels like it needs a boost or a pick-up. Great for Healings and Blessings.

There is a pot of Gold at the end of every rainbow, this is your Golden -Sun Soul-Star above your head when your chakra system {your own rainbow within} is tuned.
